Applications:

For testing water samples for microbiological contamination.
Membrane filtration assembly for microbial testing in water sample (for total coliforms, E. coli etc.) and other beverage/filterable samples.

Filter Holder Manifolds (SS):

- 3 Place Manifold with non-return valve
- MOC SS 316L all parts autoclavable
- 1-way valves and filter holder support
- Each component removable and autoclavable
- Display attached to Manifold housing for convenient monitoring of Auto and Manual Mode of Vacuum Pump with Foot Switch of Water Level Indicator, running time of the system
- Provision to connect the Vacuum from either the right or left side
- MOC of Valve: SS 316L
- CE Certificate
- Warranty: 3 years

Oil Free Vacuum Pump:

- MOC of Housing: ABS.
- Max. power ： 80 W
- Complies with ISO Standard 8199 guidelines for microbiological analysis (Max. vacuum: 750 mBar)
- Max. flow rate ： 3.8 to 4.0 L/min
- Overflow protection: Yes
- Noise level: Less than 60 dB
- Warranty: 3 years
- CE Certificate

Colony Counter:

- Power: 12W
- Accuracy: 99.9%
- Accessories: Marking Pen, Magnifying Lens, Lens Holder, Operation Manual and Dust Cover
- Magnification: 110 mm diameter Magnifying glass

- Material: Mild Steel
- Probe: Auto Marker Per probe for marking and counting simultaneously
- Disc Diameter: 110 millimetres
- Illumination: Uniform glare free illumination by cool fluorescent tube light
- Display: Digital LED
- Warranty: 3 years.
- CE Certificate

ACCESSORIES:

Polypropylene Waste Bottle:

- Capacity: 4,000 ml
- Overflow Protection
- Drain
- Graduated increment: 500ml
- Autoclavable

Silicone Tube:

- Material: Silicon
- Material Certificate

Cellulose Nitrite Membrane:

- 0.45 Micron dia. 47 mm
- Shelf Life: 5 years
- Pre-sterile filter paper
- Individually packed
- Grided Paper

Culture dishes:

- Shape: Round
- Colour: Transparent
- Material: polystyrene
- Size D × H: min 55 mm × 15 mm
- Sterility: Ethylene Oxide sterilization
- Packing Size: 10 sterile culture dishes in one pack
- Warranty: 3 years

Funnel (100 ml):

- Funnel Capacity: 100 ml
- Material: Polypropylene
- Autoclavable
- Filter Size: 47 mm
- Graduation Increment:50ml
- Size (Diameter x H): appox. Dia. 55mm X 60 mm

MEDIA:

Chromogenic Coliform Agar:

- Make: Merck or HiMedia or Difco or Oxoid (as per ISO 9308-1)
- Shelf Life: Min. 2 year
- provided with material safety data sheet (MSDS)
- Cultural Response: more than 70% (Checked by NABL Accredited testing Laboratory)

Certifications

- ISO 9001:2015
- CE Certifications

Warranty: 3 Years
